

# Shade installation instructions

To our valued customers:  
 Congratulations on your purchase of Sunsational products shade in a bag.  
 With proper care this product will provide many years of enjoyment.

## Instructions

1. Identify all parts from parts list
2. Determine shade location.
3. Measure and mark wall 6 inches from both sides of the shade.
4. Install clamps at both marks ensuring that clamps are level.
5. Place 1 pulley on both hooks on left clamp and 1 pulley on right hook of right clamp for left sided cord placement. (For right side cord placement reverse pulley placement)
6. Tie one end of cord to Left hook on left clamp
7. Attached opened shade to clamps and tighten wing nuts.
8. Pull pulleys thru opening in fabric. (You may have to loosen wing nut to pull pulley thru fabric opening)
9. Loop cord thru pulleys and shades per illustration.

10. Attached cleat to wall in convenient location at least 24' above bottom of opened shade.

## FOR WINDOW SHADES ONLY

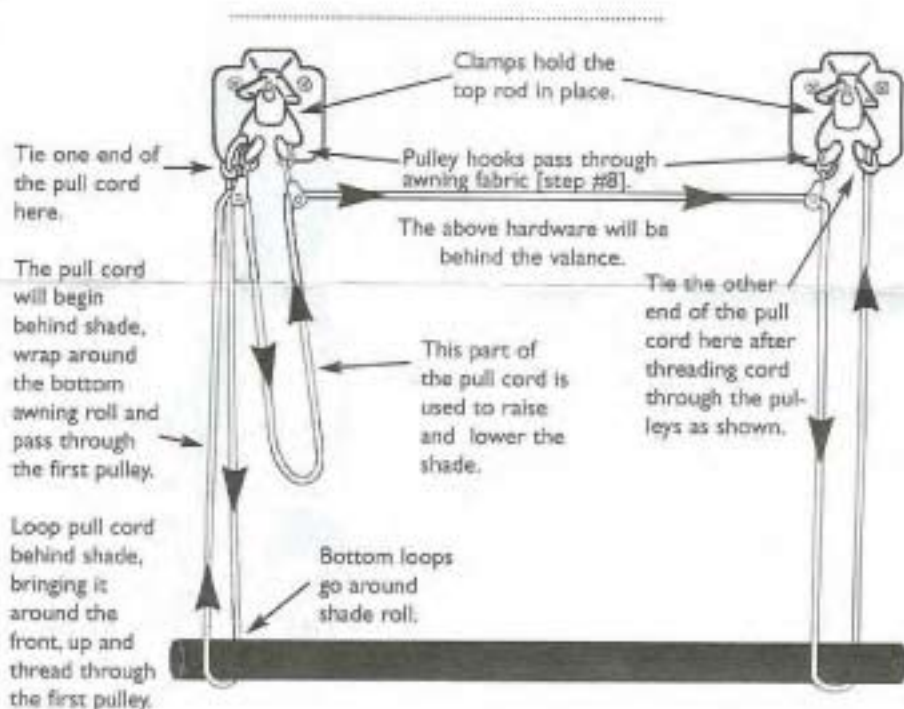

11. make mark at each clip opening while shade is open fully.
12. install all turn buttons insuring that they line up with openings.

## Tools Required

Phillips head screw driver  
 Measuring tape  
 Marker  
 Level
